

DIPAK B. KALSARIYA

Android Developer | Kotlin | Jetpack Compose | MVVM | Clean Architecture

Surat, Gujarat, India | +91 98989 70987 | mrdipakkalsariya@gmail.com | linkedin.com/in/dipak-kalsariya

PROFESSIONAL SUMMARY

Android Developer with 3+ years of experience designing and building secure, scalable native Android applications using Kotlin and Jetpack Compose, following MVVM, Clean Architecture, and Dependency Injection. Delivered 7+ production applications featuring RESTful API integration (Retrofit), Room/SQLite data persistence, offline-first architecture, Microsoft Azure SSO/MFA, MDM, Android TV, and on-device AI/ML. Collaborates with backend, QA, and UI/UX teams to ship high-performance applications on the Google Play Store.

TECHNICAL SKILLS

Languages: Kotlin, Java

Android Development: Jetpack Compose, XML, Android SDK, Android TV, CameraX, WebView, Work Manager

Architecture & Patterns: MVVM, Clean Architecture, Dependency Injection, Offline-First Architecture

Data & Networking: RESTful APIs, Retrofit, Ktor, Room, SQLite, Firebase

Enterprise & Security: Microsoft Azure SSO & MFA, MDM (SOTI MobiControl), Kiosk Mode, Geo-Fencing, Device Lockdown, Remote Configuration

AI/ML Integration: Google ML Kit, TensorFlow Lite, MediaPipe, Face Detection & Recognition, On-Device LLM Chatbots

Tools & Deployment: Git, GitHub, Android Studio, Postman, Figma, Google Play Store Deployment, Production Support

PROFESSIONAL EXPERIENCE

Software Engineer – Android | SSM Infotech Solutions Pvt. Ltd.

June 2023 – Present

- Design and develop native Android and MDM applications in Kotlin and Java for enterprise clients, improving operational efficiency by **40%** across client deployments.
- Implemented Microsoft Azure SSO and multi-factor authentication (MFA), securing access for **500+** end users.
- Architected kiosk mode, geo-fencing, remote configuration, and device restriction features, strengthening enterprise mobility and device security.
- Designed offline-first architecture with background sync, cutting manual data dependency by **50%** and improving field reliability.
- Integrated RESTful APIs (Retrofit) and local data persistence (Room, SQLite) across production applications.
- Built Android TV applications with D-pad navigation, WebView dashboards, and dynamic URL configuration for kiosk-mode deployment.
- Optimized performance and resolved critical defects, reducing crash rates by **30%** and improving app store ratings.
- Collaborated with clients, backend, QA, and UI/UX teams on requirement gathering, production deployment, and post-launch support.

KEY PROJECTS

AIMS Connect – Organization App (Google Play Store) | Kotlin, MVVM, REST APIs, WebView, Dependency Injection

- Published a production-ready MVVM app with secure authentication and background services to the Google Play Store.

DOW – Digitalization of Workbook (MDM Solution) | Kotlin, Java, Work Manager, SOTI MobiControl

- Developed an offline-first digital workbook with kiosk mode and geo-fencing, reducing manual work by **50%**.

I View Progress – Enterprise Application | Kotlin, Java, SQLite, REST APIs, WebView

- Built a dynamic Android app with real-time notifications and offline support, boosting user engagement by **25%**.

Face Recognition System | Kotlin, Google ML Kit, TensorFlow Lite, CameraX

- Delivered real-time face detection and recognition using ML Kit and TFLite embedding models for secure authentication.

Offline AI Chatbot | Kotlin, MediaPipe, Room Database, SQLite

- Built an on-device LLM-powered chatbot with local chat history, enabling 100% offline AI conversations.

EDUCATION

Certified Android Developer — Red & White Multimedia Education

2021 – 2022

Draughtsman Civil Engineering — S.M.T B H Shah, Karjanvala

2018 – 2021

LANGUAGES

Gujarati (Native) | Hindi (Fluent) | English (Professional)
